DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed over the prior art of record.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is that the prior art neither teaches nor fairly suggest a method of protecting a gate structure, forming a protection structure over a transistor gate structure, and fabricating a transistor as presented in independent claims 1, 14 and 16. Major emphasis is being placed upon the provisions of "*forming silicon germanium oxide above a gate structure (claim 1), forming silicon germanium above a gate material layer (claim 14), and oxidizing the protection layer and an exposed portion of the semiconductor body to form a first oxide material on the patterned gate structure and a second oxide material on the exposed portion of the semiconductor body (claim 16)*", in combination with other limitations of the said claim and its dependent ones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
